ABOUT VGROW

VGROW is a multifaceted company operating in various sectors including land work, AI technology, gold mining, FX trading, and cryptocurrency. With its diverse portfolio, the company has been consistently profitable across these domains.

One of its notable ventures, VGrow, is a Dubai-based trading company specializing in forex trading. The forex market offers unparalleled opportunities for investors due to its decentralized nature and the ability to trade currencies around the clock. With a daily turnover exceeding \$5 trillion, the forex market dwarfs the combined turnover of the world's stock and bond markets, making it the largest market globally.

Forex trading, also known as currency trading, provides liquidity and competitive pricing, making it an attractive option for private investors and individual traders. The market's stability and growth amidst fluctuations in other sectors further contribute to its appeal. As a result, forex trading continues to see an upward trajectory in terms of investment and management. Ai Trade capitalizes on these advantages, leveraging its expertise to thrive in the dynamic forex market and other sectors it operates in.

What is Forex?

Forex (in simple terms, currency) is also called the foreign exchange, FX or currency trading. It is a decentralized global market where all the world's currencies trade with each other.

It is the largest liquid market in the world. The liquidity (more buyers and sellers) and competitive pricing (the spread is very small between bid and ask price) available in this market are great. With the irregularity in the performance in other markets, the growth of forex trading, investing and management is in upward trajectory.

What is cryptocurrency?

A cryptocurrency is a digital currency, which is an alternative form of payment created using encryption algorithms. The use of encryption technologies means that cryptocurrencies function both as a currency and as a virtual accounting system. To use cryptocurrencies, you need a crypto currency wallet.

Crypto is a digital currency designed to work as a medium of exchange through a computer network that is not reliant on any central authority, such as a government or bank, to uphold or maintain it.

What is Forex Market?

According to the Bank for International Settlements Exchange and OTC Derivatives Markets Activity show that trading in foreign exchange markets averaged US\$7.5 trillion per day in April 2022. This is up from US\$6.6 trillion in April 2019. Measured by value, (BIS), the preliminary global results from the 2022 Triennial Central Bank Survey of Foreign foreign exchange swaps were traded more than any other instrument in April 2022, at US\$3.8 trillion per day, followed by spot trading at US\$2.1 trillion.

Trade the World's Market
